SUMMARY

Aspiring Software Developer with hands-on internship experience at SNTI – Tata Steel, building AI-powered web applications using JavaScript, Python and REST APIs. Passionate about developing scalable software and intuitive user experiences using modern web technologies.

WORK EXPERIENCE

Software Development Intern — SNTI – Tata Steel

Jan 2026 – May 2026

- Developed a responsive AI-powered healthcare assistant interface using HTML, CSS and JavaScript.
- Integrated Python REST APIs to process prompts and generate AI-assisted medical reports.
- Improved UI responsiveness and conversational workflows through testing and iterative refinement.
- Collaborated with developers during debugging, feature implementation and deployment preparation.

PROJECTS

Medical Assistant

[Live Demo](#)

Built a responsive AI-powered healthcare assistant interface using HTML, CSS and JavaScript with back-end API integration for AI-generated medical reports.

Maison Lune

[Live Demo](#)

Luxury fashion e-commerce frontend built with React, Vite and Tailwind CSS featuring responsive layouts and modern UI design.

Employee Management System

[Live Demo](#)

Developed a CRUD employee management dashboard using React with reusable components and responsive design.

Gameverse

[Live Demo](#)

Built an immersive gaming website using React, Tailwind CSS and GSAP. Developed responsive layouts with advanced scroll-triggered animations, reusable components, and performance-focused interactive user experiences.

EDUCATION

2022 – 2025	Bachelor of Computer Applications, Sister Nivedita University, Kolkata	(64%)
2022	Higher Secondary (Class XII), Jusco School South Park	(62%)

SKILLS

Languages	JavaScript, Python, Java
Frontend	React, Next.js, HTML5, CSS3, Tailwind CSS
Backend	REST APIs
Tools	Git, GitHub, Vite, VS Code, Figma
Currently Learning	Data Structures & Algorithms
